Our 1904 Calendars.

We have secured a line of the finest Calendars we have ever seen. The pictures are real works of art. Most of them would be appreciated, if framed, in any parlor. They are all shapes, sizes and designs, representing all subjects.

We give merchants and others a cordial invitation to call and see them. The samples are too heavy to carry around. Call and see them, or drop us a card, and we will arrange to bring you a few samples.

ATTRACTIONS FOR EVERY DAY

The Farmers of the County Urged to make Exhibits.

The arrangements for the coming Fair in October are progressing very satisfactorily. The officers of the Fair, and all the committees, are hard at work getting everything in shape, as the time draws nigh for the opening, October the 21st, just eighteen days from this date.

A round of sports, contests, races, etc., have been arranged for each day of the Fair, which should not only be highly entertaining, but should attract all classes of people from all directions.

We are informed by Dr. Gillespie, the Secretary, that there will be every day, among other attractions, Trap Shooting, Lawn Tennis and Base ball games. The best players of the country in these lines will take part in these contests.

The ball games will be played by Tazewell and Bramwell teams.

Prizes are offered in all the different departments, for fat cattle, milk cows, sheep, horses, hogs, mules, poultry, etc. A number of valuable prizes are offered for best riders, saddle horses, etc. Four races are scheduled for each day. There will be races between horses of the county every day, besides these from outside the county, one of the enjoyable features of the old-time Fair. The farmers of the county are urged to take an interest in the Fair, and do their part to make it a success.

There will be no arrangements made for the exhibit of fruits, vegetables, grain, etc., but every farmer who has good stock should see to it that he makes an exhibit. If you have not already a catalogue write at once to the Secretary, Dr. R. B. Gillespie, Tazewell and inform yourself.

Not the least attraction, by any means, of the coming Fair, will be the people themselves. It is hoped and expected, to make the social feature prominent. It will be an occasion of re-union of old friends, and a meeting place of relatives and others who have not seen each other for years. Large and well filled lunch baskets will be brought, and their contents spread on the ground and on improvised tables, and we'll eat, talk and enjoy ourselves with our wives, children and neighbors, and have a brief return of the good old times of years ago.

Bank of Clinch Valley.

The Bank of Clinch Valley people hope to be in their new building, recently purchased from Mr. O. E. Hopkins, between this date and the close of the year. The building will be entirely overhauled and thoroughly refitted in an up-to-date manner. Every facility, for doing a large first-class banking business, will be embodied in the new building. This change is made necessary by reason of their large and increasing business. This bank enjoys the distinction of having the largest capital of any bank in Southwest Virginia, and among its Stockholders are found many of the wealthiest and most influential citizens of this section. Mr. Henry Preston, the efficient Cashier, is devoting his best energies and powers to the upbuilding of this institution, and its success is largely due to his wise management. The plans, etc., are now being prepared by the Architect, and as soon as submitted and accepted, work will begin.

"Fewer Gallons; Wears Longer."

The secret is out and Tazewell can go on living just as if the riddle had never been asked.

No it can't either. Tazewell is not going to be what it was before. Its houses are going to be brighter; its people a little more prosperous—they are going to have some of their money left to buy other things with.

The answer to the riddle is this; you can paint a building with fewer gallons of Devco Lead and Zinc paint than with mixed paints, and it will wear several times as long as a building painted with lead and oil mixed by hand.

There's proof abundant of it all over the United States. There will soon be proof abundant of it in Tazewell.

What will people do with the rest of their money? John E. Jackson sells this paint.
